

MICHAEL BEN-IKHELOAH

Computer Engineer | Software Developer | Cybersecurity Enthusiast
Abuja, Nigeria | +234 706 888 5366 | mikeeben10@gmail.com LinkedIn: [Michael \(E.\) Ben-Ikheloah](#) | GitHub: [Raumedeuter](#)

PROFESSIONAL SUMMARY

I am a detail-oriented Computer Engineering graduate with hands-on experience in full-stack development and cybersecurity. I have a proven track record of contributing to government-grade software solutions and implementing secure, IoT-based hardware systems. Also a strong collaborator skilled in bridging the gap between technical execution and project documentation.

EDUCATION

Bachelor of Engineering (B.Eng.) in Computer Engineering | 2020 – 2025
Afe Babalola University – Ekiti State, Nigeria

- **Thesis:** Design and Implementation of an IoT-Based 1.8kWh Remote-Controlled Lithium-Ion Battery Bank System.

Senior School Certificate (SSCE) | 2014 – 2020
Lumen Christi International High School – Edo State, Nigeria

PROFESSIONAL EXPERIENCE

Software Developer / Cybersecurity Analyst | July 2022 – Present

Pyrich Group Limited – Abuja, Nigeria (Internship transitioned to Full-Time)

- **Collaborative Development:** Contributed to the frontend development of the Labour Market Information System (LMIS) using React.js and Node.js as part of a development team. lmis.gov.ng
- **Infrastructure Support:** Assisted in the installation and configuration of Veritas Backup Exec, Windows Server 2016, and VMware on the Nigeria Social Insurance Trust Fund database servers.

- **Web Solutions:** Designed and deployed a responsive corporate website for Piratech Nigeria Limited using HTML, CSS, and JavaScript, optimizing load times and engagement. piratechnigeria.com
- **Technical Documentation:** Co-authored comprehensive user manuals for National Inland Waterways Authority (Optima and Express projects) and drafted internal technical memos.
- **Systems Engineering:** Provided technical support for the NSITF Enterprise Business Suite (EBS) during promotion exams and supported module testing and domain configuration.
- **Security & Compliance:** Verified and registered over 200 Ministry Department and Agency (MDA) codes on the Federal Character Commission (FCC) portal to ensure secure access.

Cybersecurity Intern (Remote) | January 2024 – June 2024

Hagital Consulting – Lagos, Nigeria

- Performed ethical hacking simulations, including SQL injection, XSS, and brute-force attacks, utilizing Burp Suite and Metasploit.
- Conducted vulnerability scanning and network traffic analysis using Wireshark and Nmap.
- Analyzed OS-level security configurations in Kali Linux, Ubuntu, and Windows environments.
- Studied GRC frameworks and networking models (OSI/TCP-IP) to ensure alignment with industry compliance standards.
- Completed hands-on labs focused on web vulnerability scanning and penetration testing methodologies.

TECHNICAL PROJECTS

IoT-Based 1.8kWh Battery Bank System (Capstone Project)

- Designed a remote-controlled lithium-ion battery bank integrated with IoT for real-time monitoring and power management.

Memorial Web Application (Full-Stack) * Developed a full-stack platform using Node.js, Express.js, and PostgreSQL for public tribute submissions.

- Managed secure server-side request handling and production deployment on Render.

RPG Web Game

- Built a browser-based interactive game using JavaScript to demonstrate complex control flow and DOM manipulation.

Sunce Energy Website (Client Project) | sunce-itelenergy.com

- **Frontend Lead:** Engineered a professional, multi-page corporate platform for a renewable energy firm using **HTML5, CSS3, and JavaScript (ES6+)**.
- **Product Architecture:** Built an interactive product gallery for high-tech energy solutions (Inverters, LiFePO4 batteries), focusing on scalable UI components.
- **DevOps Collaboration:** Collaborated with a backend developer to manage version control and successful production deployment via **Vercel**.

Cybersecurity Lab Simulations (TryHackMe)

- Completed hands-on labs focused on web vulnerability scanning and penetration testing methodologies.

TECHNICAL SKILLS

- **Programming & Web:** JavaScript (ES6+), Node.js, React, TypeScript, PHP (Laravel), Python, ASP.NET, SQL (PostgreSQL), Next.js, HTML5, CSS3, Sass.
- **Cybersecurity:** Vulnerability Scanning, Penetration Testing, SIEM tools, Nmap, Risk Assessment, GRC Frameworks.
- **Tools & DevOps:** Git/GitHub, MS Azure DevOps, Vercel, Vite, Windows Server, VMware, Oracle VirtualBox.

- **Soft Skills:** Analytical Problem Solving, Technical Writing, Requirement Gathering, Team Collaboration.

CERTIFICATIONS

- **Certified in Cybersecurity (CC)** – ISC²
- **ISO 27001 Foundation** – Information Security Management
- **Technical & GRC Cybersecurity** – Hagital Consulting
- **Responsive Web Design** – freeCodeCamp
- **Linux Operating System** – Great Learning
